

IN DIFFERENCES WE ARE MANY ...

IN HOPE WE ARE ONE

## Penn Hills Night of Awareness

*Bringing Hope to Addiction, Mental Health, and Recovery*

Thursday, May 17, 2018

6:00 - 8:30 PM

Penn Hills High School Auditorium

This first-ever symposium is designed to create awareness among parents and the community at large of the **critical issues of addiction, mental health, and recovery**. In light of the school tragedies that have occurred across our nation, the need for concerned people everywhere to be knowledgeable, prepared, and positioned to seek help for our children and young adults has never been more acute.

We want to **start our community "talking,"** so we can all be part of the solution instead of the problem.

This event **will feature a panel of experts** from various local agencies who work with addiction, mental health, and school-based student assistance programs. Following a presentation from each panelist, our audience will be encouraged to ask questions, thus seeking **guidance on where to turn for help**, if or when needed.

Attendees will be able to **participate in breakout sessions led by a variety of agency experts** and converse on a more personal level. Valuable information materials from their agencies will also be made available to participants at this time.

Penn Hills School District is supporting this event through the use of its high school auditorium. The event itself, however, is being organized in its entirety by an informal group of concerned Penn Hills parents.

Don't miss the opportunity to attend this special community event. **Not appropriate for young children.**
